Progress report of SIKA control system

(請自下一頁開始撰寫)

## 一、目的

As requested I reported the progress of SIKA work and future plan to managers.

## 二、行程

Depart from Sydney 21<sup>th</sup>

Hsinchu 22<sup>th</sup> to 25<sup>th</sup>

Taipei to Sydney 25<sup>th</sup>

## 三、內容摘要：

I was presented the development progress of SIKA control system included the integration of sample environments and GUI development. The statistics of SIKA proposals had been discussed in the meeting. The future plan of SIKA work for next year also presented in the meeting.

As an office stationed at ANSTO, managers had gave some advices to enhance the internal communication. The discussion continued during lunch.

To support the administrative work and improve the internal communication, I had visited the planning office and secretary office. Due to the position alternation, I have to keep in touch with new contact windows to make the administrative work go smoothly.

## 四、心得概述與建議

During the stay in center, I had discussed with planning office about the report of SIKA progress and group work. I had learned some idea about the background of report request from MOST.
